    Desert
    Desert_Valley
    Forest
    Forest_Autumn
    Forest_Dark
    Lava
    Ruins
    SeaRoad
    SeaRoad_Winter
    Seashore
    SkyLand
    Swamp
    Valley
    VineForest
    Winter

2. Each background is seamlessly **y-tiled** and can be scrolled up and down.

3. **High Resolution** original images.
(**1536x2048** pixels）

I have used AI/ML in my package creation process

The assets were created using a combination of **digital hand drawing** and **generative AI**. The workflow is as follows:

    1.   Images were produced using digital painting tools for hand drawing.

2. Generative AI techniques such as 'Image to Image' and 'Prompt' were employed to generate images.
3. Post-processing was conducted using image editing software, which included fixing imperfections, resizing, color adjustments, and other retouching tasks on the generated images.
